Completed my **intermediate** with aggregate of **9.48 CGPA**

## INTERNSHIP

Full Stack Trainee | **Jul, 2022 - Nov, 2022**

Competitive Coding | **Jan, 2023 - Feb, 2023**

Java Programming | **July, 2023 - Aug, 2023**

## PROJECTS

### 1. Late Commers

- Developed a user-friendly real-time system using HTML, CSS, JavaScript, React, Node.js, and MongoDB to track and monitor latecomers, capable of handling large data volumes.

### 2. Netflix Clone

- The creator built a feature-rich Netflix clone website using React.js, HTML, CSS, and Bootstrap that is similar to the actual Netflix website. ( [click](#) )

### 3. Portfolio

- I created a personal website using HTML, CSS, and Bootstrap to display my web development proficiency and projects. ( [click](#) )

### 4. CRUD operations

- I developed a website with seamless CRUD operations using React, Spring Boot, and MongoDB, ensuring an efficient and user-friendly experience. ( [click](#) )

## CODING PROFILES

## BADGEAS
