PROFESSIONAL SUMMARY

Motivated Software Developer with strong foundations in Java and full-stack web development. Experienced in building responsive, database-driven applications using HTML, CSS, JavaScript, React.js, SQL, MongoDB, and PHP. Passionate about writing clean, maintainable code, collaborating in agile teams, and developing scalable solutions that solve real-world problems in IT and software engineering environments.

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, PHP
Web Technologies	HTML5, CSS3, React.js, REST APIs
Databases	SQL (MySQL), MongoDB
Tools	Git, GitHub, VS Code, Excel
Soft Skills	Communication, Team Collaboration, Problem Solving

EXPERIENCE

Associate — April 2025 – Present
Wipro, Hyderabad, Telangana

- Monitor and investigate suspicious transactions to detect and prevent fraudulent activities.
- Analyze data patterns and customer behavior to identify risks and ensure account security.
- Collaborate with internal teams to escalate critical cases and provide timely resolutions.
- Maintain accurate documentation of findings and support compliance with regulatory standards.

Java Development Intern — Jul 2023 – Aug 2023
Oasis InfoByte, South West New Delhi

- Developed backend features using Java and contributed to the creation of reliable API endpoints.
- Wrote and ran unit tests to make sure all code worked properly, achieving 100% test coverage.
- Gained hands-on experience with real-world Java projects and improved problem-solving skills.

Full Stack Developer Intern — Jul 2022 – Nov 2022
Technical Hub, Surampalem, Andhra Pradesh

- Built responsive web applications using HTML, CSS, JavaScript, and React.js.
- Designed RESTful APIs and integrated frontend components with backend services.
- Developed database schemas and queries using SQL and MongoDB for efficient data handling.
- Participated in code reviews and debugging sessions to improve code quality and performance.

EDUCATION

Bachelor's of Technology (CSE) — 2020 – 2024
Aditya Engineering College (**72%**)

Intermediate (M.P.C) — 2018 – 2020
Sasi New Gen Junior College (**90.9%**)

10th (CBSE) — 2017 – 2018
Vidyanjali School (**68%**)

PROJECTS

AI-Powered Trip Planner (Live Link)

- Developed a full-stack web application using React.js and Firebase with secure authentication and role-based access.

- Designed structured database queries and APIs to manage user and travel data efficiently.

- Implemented input validation and error handling to improve system reliability and user experience.

Late Comers Management System

- Built a student attendance management system using MongoDB, JavaScript, and role-based access control.

- Created dashboards and reports for administrative monitoring and decision-making.

- Optimized database queries to improve performance and reduce load times.

Personal Portfolio (Live Link)

- Designed and deployed a responsive portfolio website using React.js and modern CSS.

- Integrated project links and GitHub repositories to showcase technical work.

- Deployed on Vercel for high availability and performance optimization.
